Cloudy and colder tonight; Saturday  
fair and colder.

VOLUME 102—NUMBER 49

## RETURN OF VAST SUM PAID AS TAX HINGES ON CASE

Steubenville Firm's Suit Is  
Argued Before Supreme Court.

Whether Increase in Land  
Value Is Profit, Is Question  
at Issue.

Washington, Jan. 7.—Arguments were begun today in the supreme court in the "invested capital case" characterized by Solicitor General Frierson as "the most important legal suit from the standpoint of government finances in a decade." Whether the government will be forced to return hundreds of millions of dollars paid as income taxes depends upon the outcome.

The immediate cause at issue before the court is the appeal of the LaBelle Iron Works of Steubenville, Ohio, from a ruling of the bureau of internal revenue, refusing to allow it to treat as invested capital the value of ore lands which it had purchased in 1904 for \$190,000 and which by 1917 had increased to \$1,000,000. The government agents maintained that the increase in value was "profits" and should be taxed as such. The company added the increase to its capital invested and claimed the normal deduction of 7 percent, paying under protest the additional tax of \$1,081,000.

The question at issue is whether a stock dividend is taxable as a new form of income in the present case, the increased value of the ore lands having been represented on the books of the corporation, according to the government's brief, since 1912 by "stock issued as a stock dividend."

The wide interest displayed in the case in the business world was illustrated by the number of requests for permission to appear as "friends of the court." Those granted permission to file briefs included the Long Bell Lumber company of Kansas City, the National Lumber Manufacturers Association and the Kansas City Structural Steel company.

Increased value of the ore lands is comparable to the increase which occurs in the value of a herd of cattle, which, when purchased, includes a number of calves, the applicant argued. "Profits" was defined to the court as the actual net of gain made by a business between any two dates.

## WOULD CLOSE ALL TOBACCO MARKET

Growers Prepared to Act  
On Resolutions Which  
Would Pledge Them Not  
to Produce the "Weed"  
During 1921.

Lexington, Jan. 7.—No burley tobacco will be grown in Kentucky, Indiana and Ohio during 1921, it was announced today, as the result of resolutions passed at a meeting of representatives of farmers from all parts of the district here today. The resolutions were adopted by representatives from 35 out of 58 counties in the burley tobacco district of Kentucky, together with men from Indiana and Ohio tobacco raising sections, voted almost unanimously in favor of not planting tobacco this year.

A resolution also was passed asking that tobacco warehouses which have been closed since last Tuesday remain closed indefinitely and suggesting that May 1 would be ample time for them to open, and that warehouses which had not closed so far at once.

This request, according to statements made by leaders at the meeting, includes the hoghead and tobacco markets at Louisville and Cincinnati.

A committee of 10 was selected to meet this afternoon with bankers and warehousemen to make arrangements for financing the growers during the period of holding the 1920 crop.

## DISCUSSES PROBLEMS OF SCOUT LEADERS

Most of the problems arising in a scout troop when analyzed, are found to rest in the scoutmaster himself, Perry A. Lint, scout executive of the Columbus council, Boy Scouts, said last night in a talk before members of the scout leaders' training class. Mr. Lint discussed problems of troop management and leadership in a 40 minute talk.

He said that failure of the troop committee to act with the scoutmaster was due in most cases to the failure of the scoutmaster to give these men a definite task in connection with troop meetings.

Mr. Lint will be one of the speakers before the Rotary club Tuesday.

## SHIPBUILDERS' CLAIMS HEARD.

Washington, Jan. 7.—Claims of wooden shipbuilders involving between \$6,000,000 and \$8,000,000 for losses alleged to have been sustained through the government's cancellation of contracts were set for a hearing today before the shipping board. Representatives of the Emergency Wood Ship Builders association were to appear in behalf of 34 wooden ship yards on the Atlantic and Gulf coasts, they said and about 20 yards on the Pacific coast.

**CARDINAL GIBBONS IMPROVES.**  
Baltimore, Md., Jan. 7.—Cardinal Gibbons maintains the improvement which set in this week and he may be allowed to sit up in bed next Sunday if there is no setback, it was stated at the archbishop's residence this morning. His physicians note a decided change for the better it was said.

**CHIP MEETS DOWNEY.**  
Cleveland, Jan. 7.—George Chip, former middleweight boxing champion, will meet Bryan Downey in a 10-round bout here tonight. The men are to weigh 180 pounds at 3 o'clock this afternoon.

## PENROSE FIGHTS INCREASED TAXES, DESPITE ILLNESS

Sen. Boise Penrose as he appeared on his arrival in Washington recently.

After an absence of thirteen months in which he hovered near death for several weeks, Sen. Boise Penrose has returned to Washington and is leading the fight of the tariff bill and opposing the additional taxes proposed. A sun parlor has been erected for the senator as his capital office, where he can rest while conferring with G. O. P. leaders. He shows the effects of his long illness, his friends have noticed.

## STEALS WIFE AT POINT OF GUN

Employee of University of  
Wisconsin Asks Police To  
Locate "Spanish Grandee"  
Who Collected \$100  
For Honeymoon.

Chicago, Jan. 7.—Search for Pierre Paul Authier, missing "Spanish grandee" resident of Highland Park, Illinois and Mrs. Charlotte Franzen of Madison, Wisconsin, shifted to Philadelphia and other eastern cities, on unusual charges of larceny preferred by the woman's husband, Philip M. Franzen, chief decorator for the University of Wisconsin.

The warrant obtained by Franzen accused Authier of "stealing" Franzen's wife at the point of a pistol and forcing him to hand over \$100 to pay for the honeymoon. Franzen says his wife's statement led him to believe the couple may be in Philadelphia.

On New Year's day disappeared from his home in Highland Park leaving his wife and baby girl.

When Authier appeared at the Franzen home last Tuesday night, according to Franzen, he declared Mrs. Franzen was the woman he had married thirteen years ago in Australia.

"I have searched for her for 10 years," Franzen quotes Authier as saying while pointing a pistol at Franzen's head, "and now I mean to have her."

Documents valuing claims to each other were signed by Franzen and his wife at Authier's command, Franzen says, and then the visitor stood guard while Mrs. Franzen went out to cash her husband's check for \$100.

Franzen says he was resigned to the situation until Wednesday when he received letters from Mrs. Authier declaring intercepted letters from Authier to Mrs. Franzen was trying to steal her husband. He was convinced then, he declared, that he was the victim of a "frame-up" Enoch Arden plot.

**LORD MILNER RESIGNS.**  
London, Jan. 7.—Lord Milner today resigned his portfolio as secretary for the colonies. His successor has not yet been announced.

## TAFT HAS CLASH WITH ZANGERLE OVER TAX PLANS

Cleveland Auditor Tells Cincinnati to Have Property Re-appraised.

Says Present Laws Give Ample Authority to Change Property Valuation.

Columbus, Jan. 7.—A clash between State Representative Robert A. Taft of Cincinnati and County Auditor John Zangerle of Cleveland over methods of providing financial relief for Cincinnati, marked the second day's session of the Ohio Tax association here today.

After Mr. Taft had finished his talk before the tax conference in which he declared that it was impossible under present tax limitations to raise more than \$2,200,000 to meet a budget of \$7,000,000 in Cincinnati, Mr. Zangerle declared that "Cincinnati needs no new tax laws to solve its problems; all it needs is to re-appraise its property as other counties and cities and as other states have done, for which ample authority is provided in existing laws."

"I deny entirely Mr. Zangerle's statement," declared Mr. Taft. "It is erroneous to say that any method of assessment will take care of Cincinnati's deficit of \$4,800,000."

Mr. Taft said the most that could be expected from a reassessment would be \$1,500,000. He declared that the Smith law had been reduced to an absurdity and "serves rather to encourage than check municipal spending."

As a result of the restrictions, he said, Cincinnati was faced with the alternative of closing city government or issuing deficiency bonds, and that authority to do the latter had been requested of the present legislature.

Representative Taft suggested the possibility of amending the Smith law by placing a separate limitation on the different political subdivisions instead of a combined limitation. He advocated abolition of the state levy on the general property duplicated and suggested in lieu thereof a state tax on gross profits of corporations and other business organizations.

L. T. Taber, master of the state grantor's lien on farm land taxes and W. P. Hainkamp discussed the single tax method.

## FORMER RAILROAD MAN HERE GETS PROMOTION

Albert O. Veitch, who early in his career served as telegrapher at the Newark office of the B. & O. railroad company has been made superintendent of the Olympic division of the Chicago, Milwaukee and St. Paul railroad.

Mr. Veitch came to Newark from Cambridge and left here six years ago to take a position with the C. M. & St. P. railroad. His advancement has been rapid.

He has been residing in Spokane, Wash., but his new duties will require his establishing headquarters at Port Angeles, Wash.

## MOTOR BANDITS ROB NIGHT AGENT

Enter Pennsylvania Station  
at Massillon and Knock  
Agent Unconscious—Escape With \$600.

Massillon, O., Jan. 7.—Five bandits held up the Pennsylvania railroad company night ticket agent here today, knocked him unconscious, stole between \$500 and \$600 from the cash drawer and escaped in an automobile. Before leaving town the bandits held up two citizens in the heart of the business section, robbing them of small sums of money.

## NEWARK MEN ATTEND OHIO TAX CONFERENCE

Several members of the committee recently appointed by the Chamber of Commerce are attending the sessions of the Ohio Tax Association, being held at the Deshler hotel in Columbus today.

Among those attending from Newark are E. M. Baugher, W. M. Morgan, Clifford Frye and Fred Wilson.

## TWO MURDERERS PAY PENALTY FOR CRIMES

Columbus, Jan. 7.—Two Cleveland murderers paid the penalty for their crimes by death in the electric chair at the Ohio Penitentiary early this morning. They were Joseph Dell, 26, and Robert O'Neil, 28, negro, both convicted of having killed their wives. Dell was the first taken into the death chamber and executed. He was exceedingly calm and showed no visible excitement. He died at 12:03 1/2 a. m.

O'Neil broke down completely as he entered the death room and had to be helped to his seat in the electric chair. He died at 12:17 1/2 a. m.

## PAROLED MAYOR WILL TELL STORY

Action of Government In  
Paroling Stowaway Will  
Give Him Opportunity to  
Appear Before Committee.

Washington, Jan. 7.—Regardless of what final action is taken on the admissibility to this country of Daniel J. O'Callaghan, Lord Mayor of Cork, who arrived at Newport News Tuesday night as a stowaway without a passport, development of the last 24 hours appeared to have removed all obstacles to the achievement of the purpose for which he came here. Action of Secretary of Labor Wilson in paroling O'Callaghan on his own recognition was believed to have insured free opportunity for his appearance before the committee of the commission of one hundred in investigating the Irish situation on January 17.

With O'Callaghan's case not yet having been formally referred to the state department by the department of labor as indicated by Acting Secretary Davis, was not disposed to waive the passport restrictions in the lord mayor's favor had no bearing on his status. Declaring that the lord mayor's parole led nothing to prevent his coming to Washington to meet the committee, O'Callaghan, though he should finally be deported, Secretary Davis said the labor secretary's order had been issued with consulting with the state department.

## B-O CUTS 140 MEN OFF TODAY

Newest Order Brings Total  
Number of Men Laid Off  
to Nearly 700—Clerks  
May Come Next.

Continuing the policy of reducing the mechanical force each week, the Baltimore & Ohio railroad officials today announced a further cut of more than hundred men.

Following the big cut of last week, affecting over 200 men, this week's cut came somewhat as a surprise. The number of men laid off at the local shops in the past six weeks, will total close to 700 men.

An official of the Federated Crafts stated today that between 100 and 140 men had been laid off the customary five days notice today.

When asked if there was any foundation for the rumor that the back shops would shut down, he said he had no information to that effect. There is also a rumor prevalent that the clerical force will be reduced next.

The Federated Crafts officials stated the lack of employment in the local shops today is the worst in the history of the shops.

## GOLF ASSOCIATION MEETS.

New York, Jan. 7.—Selection of links on which the three annual American golf championships tournaments—men's, women's and juniors—will be played this year will constitute the chief business of the annual meeting of the United States Golf association here today.

Boston—Clavin Coolidge, retired governor of Massachusetts for the first time in years is an ordinary citizen. He will become vice president in March.

## ADMIRAL HOPES OFFICIALS WILL ALLOW HIM TO KEEP SEVEN RUSSIAN ORPHANS

Admiral Newton A. McCully and five of the seven Russian orphans he wants to adopt.

Admiral Newton A. McCully of the U. S. navy arrived in New York recently surrounded by seven Russian children, ranging from three to twelve years of age, whom he hopes to legally adopt and rear in Washington, where he lives. He is a bachelor, but a niece who occupies his home with him will help him with the children, all of whom come from good families. The U. S. immigration officials may prevent him bringing out his plans. They are now considering the legality of his bringing the flock to the U. S. Admiral McCully served on commissions in Russia and Constantinople for five years.

## B. & O. WILL AGAIN INCREASE FORCE AS BUSINESS CONDITIONS WARRANT

Officials At Banquet Given By Chamber of Commerce  
Thursday Night Predict Revival of Business During  
Spring—Men Visit Newark Industries On Trip of  
Inspection.

One of the most successful activities of the Chamber of Commerce in recent years culminated in the banquet last night at the Masonic Temple when visiting B. & O. officials were the guests of the members of the Chamber of Commerce in a big dinner, attended by 240 of Newark's business men.

The officials, who included C. W. Galloway, vice president of the company in charge of operation and maintenance, George H. Campbell, assistant to President Willard and Harry O. Hartzell, manager of commercial development, arrived in Newark at noon and were met by the committee from the Chamber of Commerce and 50 business men of the city in machines.

The party went first to inspect the plant of the Ohio Power company, a corporation which serves some 49 towns and cities in Ohio and has 36,000 customers. Following a tour of inspection of the plant the party returned to the committee and began a tour of inspection of the large industrial plants of the city. Plants visited and inspected were the American Bottle company, the Heisey and Holophone plants, the Wehrle company, Hamilton Car Works, Cree-Becker Oil Tool company, Wesley Montgomery and Sons, Halloway Motors corporation, the Widant Greenhouses and the B. & O. shops. In addition to these plants foundrymen and the Country club grounds were inspected, being of interest to the visitors because of the historical monuments. Following the tour the party went to the Masonic Temple where at 6 o'clock an excellent chicken dinner was served.

President W. W. Davis of the Chamber of Commerce thanked the B. & O. officials for their visit to Newark, and, as it did, an opportunity for Newark citizens to show how important they considered transportation as it affected the city. Mr. Davis read telegrams of regret from E. W. Nash, freight agent for the Pennsylvania lines at Philadelphia, from A. W. Thompson of Philadelphia who is in the south and had Manager W. I. Lewis read the regrets of President Daniel Willard, who in a lengthy telegram thanked the Chamber of Commerce for the invitation regretting that a previous engagement made it impossible for him to be present at the meeting.

Treasurer Davis introduced Charles W. Galloway, vice president in charge of operation and maintenance.

Mr. Galloway's first words, in appreciation of the courtesies shown him during the afternoon, were "Don't forget to let me know when you have another affair like this. I'd like to come next time." Mr. Galloway immediately struck the right degree of intimacy with his audience and his discussion of a railroad's problems following their return from government control proved very interesting indeed. Mr. Galloway stated that the railroad was returned to private ownership in a weakened condition and that the problem was to restore them as quickly as possible in face of the decline in business which has recently forced retrenchments of all kinds.

"The company is, and always has been willing to cooperate with its employees in every possible manner," said Mr. Galloway. "Labor however must realize a more common interest with the employers." In Mr. Galloway's statement the labor problem must be solved but he said he did not have the slightest reason to know how it would be solved.

George E. Campbell, assistant to President Willard stated that his message for the citizens of Newark was that the B. & O. wished always to be "good neighbors" with the communities which the corporation serves. In regard to labor he said that demand for

labor was off now because business was off and that as soon as business regained its normal trend men would be employed again. Regarding the probable length of the business depression which admittedly exists at present he remarked that opinions he had heard stated that the length of it anywhere from three weeks to two months.

H. H. Lewis, general freight manager of the district with headquarters at Cincinnati, on behalf of the B. & O. thanked the shippers of Newark for their cooperation in the matter of heavy loading and speeding up of cars, stating that the saving to the company because of the assistance of the shippers in his district amounted to \$2,500,000. Mr. Lewis, in direct bearing with the real object of the B. & O. officials' visit to Newark, urged that the problems confronting shippers be taken up with officials of the company where he promised prompt and close attention in the effort to solve them. He stated that the company was endeavoring to obtain the best of the geological, fuel, water, light, housing conditions and raw materials, thus enabling the railroad to furnish first hand information to manufacturers as to the desirability of a city. The commercial department also included a geological bureau, a survey made of the cities on the B. & O. for the purpose of furnishing manufacturers data on conditions in each town. He stated that such a survey includes the factors of labor, power, water, light, housing conditions and raw materials, thus enabling the railroad to furnish first hand information to manufacturers as to the desirability of a city. The commercial department also included a geological bureau, a survey made of the cities on the B. & O. for the purpose of furnishing manufacturers data on conditions in each town. ## HAVE SMALL STAFF TO DISTRIBUTE BIG FUND

Chicago, Jan. 7.—Only 40 Americans will be required to handle the distribution of the thousands of tons of foodstuffs to 3,500,000 undernourished children of Eastern and Central Europe this winter, according to the program of the European Relief Council of which Herbert Hoover is chairman. The detail of all transportation and cooking of food, the examination and re-examination of the children, the local administrative work, is carried on by the local native committees, many of the members of which are volunteer. The native workers number more than 100,000.

It will take every week this winter 3944 metric tons of American foodstuffs, or nearly nine million pounds. This will provide these children with one meal each day. "There is somewhat less than a half a pound of food and it is furnished only six days in the week, no kitchen being open on Sunday. The total cost, for that thirty-four weeks until the next harvest, of furnishing more than 13,000 tons of foodstuffs, will be \$23,000,000.

The food is of the plainest and includes such staples as cocoa, sugar, condensed milk, flour, beans, rice and lard. The cost to the European Relief Council of a single meal is approximately three cents, while it is estimated that one dollar will feed a child for a month and ten dollars will feed him until next harvest. The childfeeding can be done for this small sum, the food bought, sent over, distributed, cooked and fed to the children, because for every dollar contributed in America, the foreign governments give two dollars, furnishing the transportation, the warehousing facilities, the kitchens, the personnel, and all other details necessary to translate the raw food in America into warm, noon-day dinners for the starved children.

Eight charitable organizations in this country have united to keep open the feeding stations, in Austria, Hungary, Czechoslovakia and Poland. They are the American Relief Administration, the American Red Cross, the American Friends Service Committee (Quakers), the Federal Council of Churches of Christ in America, the Jewish Joint Distribution Committee, the Knights of Columbus, the Y. M. C. A., and the Y. W. C. A. A total of \$33,000,000 is sought in the United States, \$23,000,000 for the childfeeding program, and \$10,000,000 for medical attention to several million little sufferers from the diseases of malnutrition.

Franklin K. Lane is treasurer at headquarters, 42 Broadway, New York.

## LECTURER GETS IRISH LORE AT FIRST HAND

Seumas MacManus of Donegal, Ireland, the Irish writer and lecturer, has been secured by the City Federation of Women's clubs, to lecture at the High school auditorium, January 17. All who are acquainted with MacManus' Irish stories, in the leading magazines, or with his books, need hardly be told that he got his knowledge of the wit and humor and poetry and pathos of Irish life at a first hand. From his cradle he looked out every day on the rugged mountains and cliffs of the wave-lashed Donegal; and he heard the Donegal calceens singing round him the old Gaelic lullabies; and listened to the cromies and shanachies, who dropped every night into his father's cottage on the mountain side, chant the ancient Irish poems and tell the thousand years old legends and tales. In fact, he was suckled on the very lore which he has now for ten years been giving to the American public. The 14 or 15 books of fairy tales and of original story and drama that he has given to the world, since at the age of 18 he was appointed the mountain schoolmaster, form only a small part of the great wealth of Irish lore which he imbedded as a child. In his "Lad of the O'Fries" and his "Donegal Fairy Stories" and his "Ballads of a Country Boy," among others, he gives us Irish life and character and Irish song and Irish story, Irish humor and pathos, combined like the sunshine and mists of his native hills.

## NEWSPAPER MEN READY TO MEET BALLOONISTS

Cochrane, Ontario, Jan. 7.—Newspaper correspondents here are finding it as difficult to locate the three American naval balloonists on land as it was in the air before they descended on the icy shores of Hudson Bay.

The correspondents, rushing here from the United States prepared to rush north to meet the returning aviators, have found themselves puzzled as to which trail to select. If they pick the wrong one, they are likely to pass the aviators traveling south, whereas if they remain at Cochrane, on the transcontinental railway, through which the Americans ultimately must pass, several days may elapse before they get the full story of the aerial adventure.

So at present the newspapermen are camping in their special train. All speculation as to the aviators' whereabouts is based on the assumption that they carried out their announced intention of leaving Moose Factory, December 27. Tidings of their plans were brought into Mattice by Indian runners, but up to yesterday, no word has been received to show that they actually had started.

Current opinion was that before nightfall word would be received that the aviators had reached some rail head.

The correspondents also are faced with the possibility that because of weather conditions, the Indians guiding the Americans may take a branch trail and emerge not at Mattice or Cochrane, but at any one of a dozen other stations on the railway line. Meanwhile the newspaper special is being held with steam up, ready to dash to the scene whenever the flash is received that the aviators have finished their long tramp.

The temperature, which has been exceptionally mild for this season, dropped during the night and the thermometer, yesterday morning registered 18 degrees below zero. Reports from Mattice district stated that 10 inches of fresh snow covered the trail from Moose Factory.

# THIS FIRE SALE

OF OUR WILMINGTON, DEL., STOCK  
OFFERS YOU MANY WONDERFUL BARGAINS.  
COME AND SHARE IN THEM.  
EVERY ITEM A GENUINE BARGAIN.

### BIG FIRE ENDANGERS LIVES

Men Routed Out Of Bed By  
Early Morning Fire

NEWARK SHOE STORE  
AND NEWSTADT BROS.  
SUFFER BIG LOSS.

The fire started, apparently, in the basement of the building at 4 East Seventh street, occupied by Newark Brothers, contracting painters, where paint and oils were stored. The blaze then worked its way into the basement of the Newark shoe store, at the corner of Market St., in Wilmington, Del., and rushed up the shaft on the Seventh street side of the building, filling the entire structure with smoke.

Chief Engineer Lutz was at the fire early, and fearing a bad blaze, ordered a second alarm struck. This brought the Brandywine, Weesaco and Independence companies, and the fire was soon under control.

The loss on the building, which is owned by Max Kell, 2103 Boulevard, was slight, being only about \$2,000, according to the estimates, and covered by insurance. Managers of the paint store and the Newark Shoe Store were unable to estimate their losses, but said they believed them fully covered by insurance. Most of the damage was in the basement of the paint shop, where the fire started. The third and fourth floors of the corner building are used for storerooms.

### BIG FIRE SALE

ON AT NEWARK  
SHOE STORE.

Shoes Greatly Reduced

The Fire which broke out in our building recently at Wilmington, Del., did no serious damage, but enough to warrant restocking our store with an entirely new line of NEWARK merchandise.

## MADERO'S SLAYER TAKES OWN LIFE

Escaped to Guatemala Soon  
After Tragedy, Where He  
Was Imprisoned.

Had Checkered Career in  
Central American Republic  
After Release.

Guatemala City.—The suicide of the former Mexican general, Francisco Cardenas, in the Central Plaza of this city on November 27, is believed here to have ended all doubt as to who was the real slayer of the Mexican president, Francisco I. Madero. Cardenas had told the Associated Press correspondent that he commanded the guard by whom Madero was shot, but did not explain why he ordered the shooting.

Madero, with the vice president, Pinar Suarez, was shot to death on the night of February 22, 1913, while being conveyed under a guard of armed soldiers from his place of imprisonment in the national palace to the penitentiary in Mexico City. The usual report was rendered to the authorities that the prisoners had tried to make their escape and that the soldiers, in order to prevent them getting away, were obliged to shoot them.

Not long after the event, Francisco Cardenas appeared in Guatemala. Within a very short time, he was arrested and imprisoned by orders of Estrada Cabrera, the president then of this country. It is not clear just on what grounds Cabrera ordered the imprisonment, but it is known that Cardenas was not on particularly friendly relations with that of Carranza, who had succeeded General Huerta as president of Mexico. It is thought that the president of Mexico, the government of

Guatemala was aware that Cardenas was wanted by the Carranza government, and purposed turning him over to the Mexican authorities in exchange for certain Guatemalans in Mexico who might be conspiring against Cabrera's government. However, this may be, no exchange was made and Cardenas was kept a prisoner for nearly seven years.

During the revolution of last April when the dictator, Cabrera, was overthrown, Cardenas was taken from the penitentiary and brought into this city under a guard of troops. Colonel Belton pointed him out to the Associated Press correspondent as the man who had killed Madero.

Cardenas was a man of medium height, robust in appearance with a round, but-like head, thin black mustache and then black hair parted in ringlets over his forehead. Questioned as to the killing of Madero he dismissed the subject with the simple statement that he was in command of the guard that did the killing. He offered no explanation why he had commanded the guard to shoot the prisoners, but was more intent on relating his own misadventures, stating that he had been in prison nearly eight years, more than two years of which had been in solitary confinement. If this part of his statement is correct, he must have fled from Mexico shortly after the murders were committed, and when Huerta was still in power.

With the change of government in Guatemala last April, Cardenas was set free and given an important official position in the penitentiary, with a chance to make good, but it is said that he accepted money for granting certain prohibited privileges to prisoners. He lost his position in the penitentiary and was accused of paying too much attention to the wife of a political prisoner. When the husband of the woman was also released from the penitentiary, he was stabbed by a man who said Cardenas had paid him to do the stabbing. Cardenas was arrested and imprisoned, but was released on bail. Recently, a request came from the proper authorities in Mexico requesting that he be held by the authorities here until papers could be forwarded for his extradition.

tion on the Madero murder charge, a being explained that direct testimony had been obtained showing him to have been the man directly responsible for the deed. Through some blundering of the police department, Cardenas was permitted to make his escape from the city, but was eventually located in some woods a few miles beyond in the district of Las Vacas. On the night of November 26 he was captured.

It is stated by the lieutenant who commanded the soldiers that Cardenas offered him \$25,000 for himself and \$1,000 for each of his soldiers to be set at liberty. The offer being refused Cardenas asked permission to rest, whereupon he wrote in a memorandum book which he carried a few lines addressed to the woman with whom he had been living, given her his money and jewels and requesting her to bury his body in event of his death.

The soldiers brought Cardenas to the Central Plaza of the city, where Cardenas suddenly drew a small revolver wrapped in a handkerchief and shot at one of the soldiers only wounding him slightly. As the other soldiers closed in on him, he placed the muzzle of his pistol in his mouth, fired twice and fell to the ground mortally wounded. He was conveyed to the general hospital, where he soon died.

## SHOOT FOUR FOR THEFT OF NINE SACKS FLOUR

Cracow, Poland.—Four soldiers found guilty of having stolen nine sacks of American flour from army supplies were shot recently.

The executions were carried out under a law passed by the diet last year making it a capital offense to steal from the army. A fifth soldier, also court-martialed in connection with the flour theft, was sentenced to prison, as it was shown that he had taken a minor part in the affair.

More than 11,000 bodies of American soldiers have been returned to this country and delivered to relatives.

## SUGAR AND COCOA ARE GIVEN TO GERMAN TOTS

Berlin.—The American relief administration warehouses in Germany have included sugar and cocoa in their "food packages" which are now being delivered as holiday presents from friends and relatives of Germans in the United States.

The administration, in preparing the packages, made an effort to meet particularly the needs of children, who daily write a large number of letters to the warehouses here and in Hamburg, Dresden and Frankfurt, asking for cocoa, milk and sugar.

M. F. Murphy of the relief administration in Berlin said some of these letters "looked too good to be true," but most of them were genuine. He said they were written from families really in pitiful circumstances and to whom a food package would be the best possible gift. Among many of these families he said white bread is still practically unknown and sugar and milk even in prepared form, and in most meager quantities is a rarity.

Final figures on army casualties of American soldiers in the World War list 31,249 killed and 224,059 wounded.

## GOOD WILL

My most valuable asset is the good will of persons whom I have served. Most of my patronage comes through their recommendation of my services to their friends.

I will not slight an examination or any one of the numerous details entering into the making of comfortable, efficient glasses, because I want to merit the good will of all my patrons.

Keep thinking about it.

## Good Times Will Return In the Spring

As day follows night, and flood-tide follows ebb, so inevitably must the existing business depression some time come to an end and the in-flooding tides of prosperity begin to rise. But what the anxious business man asks just now is, "When will the tide turn, when will the dawn break, when will the buyer cease from striking and the wheels of industry again begin to revolve?" To these questions, after a careful search of the daily and financial press, THE LITERARY DIGEST, this week, is at least able to give an answer from men who should know whereof they speak. Herbert Hoover, E. H. Gary, J. Ogden Armour, Francis H. Sisson, B. C. Forbes, Guy Emerson, Charles M. Schwab, Roger W. Babson, and Governor Harding of the Federal Reserve Board, are some of the men whose opinions are mentioned.

This article is of more than usual interest and value to the American public and constitutes a survey of business conditions and prospects that should hearten every reader.

Other striking news-features in the January 8th number of THE DIGEST are:

The New Kingdom of Jugo-Slavia  
(With Colored Map)

The Employer's Duty to Employ  
Doubtful "Aid" for the Farmer  
A "Mock-Turtle" Home Rule Act

## 1921---AUTOMOBILES---1921

Read the advertising pages of this big January 8th issue which is being used by many of the foremost manufacturers to focus your attention upon automobiles and their new 1921 models. There is always great interest in automobiles at this season. The leading manufacturers present their cars to the public in a series of automobile shows beginning with the great exhibition at Grand Central Palace, New York, opening on January 8th. Throughout

the year advertising pages of THE DIGEST will present a wide variety of automobile accessory advertising news. For ten years the greatest number and variety of manufacturers have introduced their products to THE DIGEST'S market—admittedly the largest and richest automobile market in the world. In other words the advertising section of THE LITERARY DIGEST is a perennial automobile and accessory exhibition.

## SOCIAL AFFAIRS

Mr. and Mrs. M. S. Connors, Park view avenue, Essex, announce the marriage New Year's day of their daughter, Martha, to Mr. Philip H. Puckett, Newark.—Ohio State Journal.

The Women's Music club met Thursday afternoon at the home of Mrs. J. M. Mitchell. An interesting afternoon was spent in the study of the opera "Cavalleria Rusticana," attractive both in its simple melodies and the more dramatic parts, having an accompaniment pleasing throughout. Characters follow:  
Turridu.....Mrs. Coyle  
Alfio.....Mrs. Fitzgibbon  
Santuzza.....Mrs. Tucker  
Lola.....Mrs. Back  
Accompanist, Miss. Kieger; chorus under direction of Miss Duomey; violinist, Miss Pauline Phalen.

The members of the Jolly 17 club will be entertained at the home of Mrs. John Chesley in Eighth street, Tuesday afternoon.

At a meeting of the Federated W. C. T. U. held at Taylor hall, Wednesday, the following officers were elected for ensuing year: President, Mrs. Jennie Mitchell; vice president, Mrs. Bertha Ferguson; corresponding and recording secretary, Mrs. Edna H. Schrimpton; treasurer, Mrs. Laura Howard.

The East Newark community meeting will be held this evening at the home of Mr. and Mrs. Dan Baughman, 667 East Main street at 7 o'clock.

Announcement is made of the marriage New Year's day of Mr. Earl C. Lang, Newark, and Miss Mabel R. Smith, Cleveland, solemnized at the home of the bride in Cleveland. Thirty guests witnessed the marriage. Mr. Harry Kline of Columbus acted as best man, Miss Frances Lang, sister of the bridegroom, was maid of honor. Mr. Lang and his bride met overseas while the bride was serving as a Red Cross nurse and Mr. Lang was a member of the 16th Infantry. After a short wedding trip Mr. and Mrs. Lang will be at home in Newark.

The Entre Nous club met at the home of Mrs. Charles Fattler in Allen street Thursday evening.

A short business meeting was held and plans were made to have a theater party. Contests and music were held during the evening, prizes being awarded. Mrs. M. J. Dira, Mrs. F. A. Fletcher, Mrs. Thelma Hobbs.  
Refreshments were served to the members and guests. The guests of the club were: Mrs. M. J. Dira, Mrs. May Kappes, Mrs. Hazel Morningstar, Mrs. Elmer Hobbs, Miss Frances Picas, and Miss Josephine Krier of Zanesville.

The next meeting will be held at the home of Mrs. W. Litzinger, January 20.

### Milady's Boudoir

Care of the Skin.  
Who hasn't seen a woman with a beautiful skin who, without this skin wouldn't be almost plain looking? A very pretty woman does not stand a chance to be called beautiful if her skin is thick, spotted or sallow. A clear bright looking skin may be obtained by every woman and no one need be discouraged.

Just try the following method for a month and I am sure you will see an improvement. If you are regular and careful. It is worth trying. I am sure. First of all you must never wash your face or hands in water that is hard. Always add a pinch of powdered borax. If it is possible catch a pitcher of rain water and use it. Then close in a tight jar. Keep this on hand and use for the face and neck.

Borax is an antiseptic, it purifies and disinfects and fortifies one with the power to throw off infection. Never stand in the sun over a hot fire. There is nothing worse for the skin than this. Always protect the face before going out in the cold by rubbing a little cold cream on the face and then rubbing it in. Then dust with powder and wipe this off.

At night a good cleansing cream should be rubbed into the skin and you will be surprised to see how much grime and dirt comes off with the cream. This makes in the skin food and keeps this on until morning. Wash the face in the morning with a little warm water followed by a cold dash.

### Twenty-Five Years Ago

(From Advocate Jan. 7, 1896)  
At a meeting of the Half Century club held Tuesday (Jan. 7) Webb was elected president and W. H. Davis secretary and treasurer.

L. O. James is ill at his home in North Fourth street.

Twenty-five girls were entertained at the home of Harry Nutter, New Years evening.

Officers of the K. of P. lodge were installed at a meeting held last night.

### 15 YEARS AGO

(From Advocate Jan. 7, 1901)  
J. M. Farmer has resigned as township treasurer. He was succeeded by Harvey Sheppard.

Rev. Thomas H. Warner is ill at his home in Flory avenue.

### AND HE DID!

## THE COURTS

**Says Work Was Not Completed.**  
In the case of Jacob Holmke vs. Eli Hull, Hull, through his attorneys McDonald and Shalough, filed an answer and cross petition in common pleas court late Thursday afternoon. Hull denies unconditionally the allegations of Holmke's petition and for cross petition claims damages in the sum of \$300 for alleged failure of Holmke to perform his agreement to install five furnaces in Mr. Hull's houses on Neal avenue. Mr. Hull claims that the work was not completed.

**Dependant In Court.**  
Mrs. Lizzie Fulton appeared in juvenile court this morning on behalf of her son Howard, 11, who was being heard on a dependency charge. She states that arrangements have been made for the boy to live with his grandfather Griffith Jones of Cambridge township and the case was dismissed by Judge Hunter.

**Truant Is Warned.**  
Berle D. Blancy, 11, arrested by Probation Officer John Dwyer for refusal to attend school was dismissed in juvenile court this morning with a warning to mend his ways and behave.

**Get No Promises.**  
The county commissioners and County Surveyor Clyde Irwin, who went to Columbus yesterday to see the officials of the State Highway department, regarding road appropriations for 1921, were assured the consideration of the department, although nothing definite was promised to the county. Appropriations from the state and federal government have not yet been made for the year and until this is done no aid can be furnished the counties in their road work.

## OBITUARY

**Robert C. Williams.**  
Funeral services of Robert C. Williams, the day old son of Mr. and Mrs. Claude Williams of Utica were held Saturday at the home. Rev. Howard Dunmire officiating. Burial was made in the Evans cemetery at Utica.

**Mrs. Sarah C. Holland.**  
Mrs. Sarah Catherine Holland, 71, widow of Benjamin S. Holland died Thursday afternoon at 3:30 at the home of her son Charles Holland 514 West Main street. Death followed a long illness of pulmonary heart trouble and complications.

**Mrs. Holland was a life long resident** of Newark, having been born in this city September 2, 1848. She was the daughter of Joseph Pitzer, the family lived in North Fourth street on the site where the Congregational church now stands.

Surviving are two sons, Charles of the city and William of Chicago.  
Funeral services will be held Saturday afternoon at 2 o'clock in the home. Rev. Forest L. Fraser will officiate and burial will be made in Cedar Hill cemetery.

**Mrs. Amanda Alward.**  
Funeral services for Mrs. Amanda Alward were held this afternoon at 1:30 in the home of her daughter Mrs. S. E. Albin in 24th street. Rev. Mrs. Peters pastor of the Tenth street United Brethren church officiated and burial was made in Cedar Hill cemetery.

burial was made in Cedar Hill cemetery.

### PERSONAL

**Stanley L. Courson.**  
The body of Stanley L. Courson who died in Columbus Friday was brought to this city and taken by Criss Brothers to the home 241 South Fourth street. Funeral services will be held Monday afternoon at 1:30 o'clock in the East Main street United Brethren church. Rev. J. M. Lamp will officiate and burial will be made in Cedar Hill cemetery. Stanley Courson brother of the deceased is en route here from his home in Lincoln, Nebraska.

**Miss Marion Wilson of Wellesley, Mass.** has been spending her vacation with her sister, Mrs. R. P. McCutcheon. A good many Granville men and students who are fond of the sport of wrestling went to Newark last night to see the Bowser-Beel match.

**Miss Henry** will give a recital Tuesday evening in Recital hall at 8 o'clock. Ruth and Frances Williams of Columbus have returned to their home in Columbus after spending the vacation with their grandparents, Mr. and Mrs. Charles Harris.

**Mrs. George Reece of the Lancaster** entertained Monday evening in honor of Mr. Reece's birthday. The following relatives were present: Mr. and Mrs. Lewis Reece, Franklin Reece, Mr. and Mrs. Richard Reece, Miss Ann Hughes and Mrs. Clara Evans.

**Mrs. Harris** has been very ill with pneumonia at the home of her daughter, Mrs. Elza Bolen, but is slowly recovering. Ed Harris of Newark has been with his mother for two weeks.

**Richard D. Mather, son of Mr. and Mrs. Asher Mather**, was operated upon for the removal of his tonsils. He is getting along nicely.

**Mr. Wilcox** is seriously ill at his home on College street. He suffered a stroke New Year's day and his condition is critical.

The first basketball game of the season will be played Saturday evening in Cleveland hall, between Doane academy and Urbana High School.

The Pioneer Mending Bee met at the home of Mrs. Sarah DeFrance and Miss Edna De France, Thursday afternoon. Twenty regular members were present. Mrs. William Obits of Elyria was a guest of the club. Officers elected were President, Mrs. William Obits; vice president, Mrs. Adie Sellers; secretary and treasurer, Mrs. J. W. Ackley; chairman of flower committee, Mrs. H. G. Scheidt; press committee, Miss DeFrance. Refreshments were served by the hostess.

The new club called the Granville Social club, held a dance last night in the hall of the Knights of Pythias. The following were present: Mr. and Mrs. Carl Wyant, Mr. and Mrs. E. R. Graves, Mr. and Mrs. Harry Pierce, Mr. and Mrs. Clifford Case, Mr. and Mrs. C. A. Stanforth, Mr. and Mrs. Charles Jones, Mr. and Mrs. Ernest Jones, Mr. and Mrs. Fred Moore, Mr. and Mrs. Ralph Smoots, Mr. and Mrs. Joe Rodas, and Mr. and Mrs. Cherry.

The delegation of Shriners from Granville, who are attending the initiation of their order in Columbus today are Edward L. Jones, Harry Pierce, Charles Wright, Harold Kier, Albert Guckert and Joe Rodas.

Mrs. Pearly Moore and son returned to Akron today. They have been visiting Mrs. Moore's parents, Mr. and Mrs. S. C. Hand of Loudon street.

## BETTER THAN WHISKEY FOR COLDS AND FLU

**New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.**

**Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.**

**Delightful Taste, Immediate Relief, Quick Warm-Up.**

The sensation of the year in the drug trade is aspirinal, the two minute cold and cough reliever, authoritatively guaranteed by the laboratories, tested, approved and most enthusiastically endorsed by the highest authorities and proclaimed by the common people as ten times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have ever tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for all druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.—Adv.

### BIG EGG YIELD

"From a small flock of hens I now get 29 to 25 eggs per day, whereas before giving them Dr. LeGear's Poultry Prescription, I only received three or four. Its cost has been repaid to me over and over." So writes Mrs. J. W. Montgomery, Tunnell Hill, Ga.  
You should increase your yield now, while prices are high, through Dr. LeGear's Poultry Prescription. It is a tonic which builds up the hen's strength and vitality, and stimulates the egg-producing organs.  
For 28 years Dr. LeGear has been recognized as America's foremost Expert Poultry Breeder and Veterinarian. Any time your poultry or stock are ailing, it will pay you to get the prescriber Dr. LeGear Remedy from your dealer. It must give satisfaction, or your dealer will refund your money.

**BLOOD KILLS  
DISEASE GERMS**

Pure, Healthy Blood Destroys Germs,  
Removes the Waste Tissues and  
Rebuilds Bone and Muscle

If Your Blood Is Weak, Don't Delay

Take Gude's Pepto-Mangan, the Red  
Blood Builder

In your body are two gallons more  
or less of blood, which is constantly at  
work keeping your system free of  
germs, removing the waste tissues, and  
building up new strength in bone and  
muscle.

This blood must be healthy or your  
resistance to disease and germs will be  
lowered. You will lose weight, and both  
body and mind will have less vigor.

For building up blood to be healthy  
overwork, illness, or other causes  
Gude's Pepto-Mangan, for many years  
prescribed by physicians, is now gener-  
ally known as a prompt and harmless  
tonic.

Gude's Pepto-Mangan soon produces  
marked beneficial results. The tired,  
worn-out, run-down feeling disappears.  
And in its stead a vigorous and some-  
times and happiness prevails. The  
blood has been supplied with the sorely  
needed richness to strengthen the entire  
system with renewed strength.

When you buy Pepto-Mangan at your  
druggist, be sure the name "Gude's"  
is on the package. You can get it in  
either liquid or tablet form. If the name  
is not on the package it is not  
Gude's Pepto-Mangan—ADVT.

**Ema Institute Closes.**

A two-day term institute closed at  
Ema yesterday and today attended the  
sessions. The Ema term bureau will  
meet at Ema, Wednesday, January 12,  
to put in to effect the recommendations  
of the institute speakers.

**Not Sufficient Evidence.**  
Chief of Police Sheridan and Officers  
Harrington, Houchens, and Stewart made  
a raid on Martin Aronson of Clee avenue  
yesterday morning at 11:30, securing  
what police believed to be a part of a  
still used in the manufacture of liquor.  
The coil, a necessary part of the equip-  
ment was not found however and Chief  
Sheridan stated this morning that there  
was not sufficient evidence secured for  
a prosecution.

**Manages Brown Gas Station.**

An announcement was made today that  
C. A. Johnson, manager of the White  
Point gasoline filling station, has taken  
over the management of the Brown  
filling station, at Fifth and Main streets  
in addition to his work at the other  
place.

**Buy Grocery Store.**

Mrs. Emily Brown, of Pearl street  
Wednesday morning drove Harvey Shep-  
pard, grocery store, Mr. Sheppard  
is retiring from his business on account  
of ill health. Mrs. Patton stated that  
the store would be managed by C. A.  
Johnson, who has had experience in the  
grocery business.

**IRISH GIRLS LOSE HAIR  
FOR GOING WITH POLICE**

Building—The young women who in  
several Irish districts have had their  
hair cut off by Sinn Féin for associat-  
ing with the police and soldiers, have  
in most cases lodged claims for com-  
pensation for nervous injury. The  
police have in the last hair varies from  
£100 to £200.

So far none of the girls who has been  
publicly punished by the police, in re-  
taliation for the acts of their Sinn Féin  
relatives, have lodged any claims.

**OHIO INDIANS GREW  
MANY SMALL FRUITS**

That the Indians in Ohio had devel-  
oped a fondness for many of the native  
fruits, which later proved to be quite  
valuable to the white man, is brought  
out in early records of Ohio agricul-  
ture secured by the Ohio Experiment  
Station.

The Indians used the wild strawber-  
ry, cranberry, pawpaw and plum. These  
fruits usually grew in thickets which  
were carefully guarded and preserved  
by the Indians.

Some of the varieties developed by  
the Indians were destroyed by invasions  
of foreign insects. General Wayne, dur-  
ing one of his expeditions about 1794  
cut down several thousand peach and  
apple trees in northwestern Ohio.

Some of these fruits were dried to  
preserve them; they were eaten then  
along with quantities of nuts, venison  
and wild grapes.

The cultivated crops of the Indians  
generally consisted of corn and tobacco,  
peas, squashes, beans and possibly po-  
tatoes.

**ROMAN GARDENS  
MAY BE PLANTED**

Terrestrial Paradise of Ro-  
man Empires Has Been  
Allowed to Go Unculti-  
vated For Centuries—  
Must Be Reclaimed.

Ostia, Italy.—Efforts are being made  
to reclaim and plant parts of the vast  
tract of land which stretches for sev-  
eral miles around Rome and was the  
name of "Campagna Romana." It has  
been allowed to remain idle and unculti-  
vated ever since the fall of the Ro-  
man Empire.

Before that time it was a sort of ter-  
restrial paradise, villages and gardens  
were dotted all over it as far as the  
eye could see. It was luxuriant with fruits  
and flowers. It supplied food and work  
for thousands upon thousands of men.  
It was one of the most beautiful and  
intensively cultivated spots in the  
world.

When Rome, however, was obliged to  
reclaim its position as "the mistress  
of the world," the "campagna" was  
abandoned and gradually became a  
marshy, malaria-infected desert, inhab-  
ited only by a few hardy shepherds.

Now, however, the law which was  
recently passed, decreeing that anyone  
who does not cultivate his land to the  
utmost of its capacity is liable to have  
the land confiscated, is beginning to  
have its effect. Adolpheo Adolfini  
has engaged a company to reclaim a  
huge estate of several thousand acres,  
which he owns in the "campagna."

The work has already begun and an  
experimental station has been set up  
at Ostia. The land was first of all  
drained and then arrangements were  
made to obtain water from the Tiber  
for irrigation. Electric tractors to  
draw the ploughs were then bought and  
various kinds of fruits, vegetables and  
cereals cultivated in order to find out  
how fertile the land is and what kind  
of crop it is most adapted for.

The results were beyond the wildest  
hopes of any of the promoters of the  
company. The land, after lying idle for  
centuries, seems to have stored up its  
fertility throughout all that time and  
now yields crop upon crop with un-  
stinting hand.

An attempt has even been made to  
grow cotton here and the experiment  
has been successful but how successful  
it has been impossible to determine, as  
the cotton used was of the worst qual-  
ity obtainable. This year, however, it  
is proposed to plant American or  
Egyptian cotton.

So happy have the results at the ex-  
perimental station been, that it is  
hoped that soon work may be begun  
for the total reclaiming of the whole of  
the "campagna."

So happy have the results at the ex-  
perimental station been, that it is  
hoped that soon work may be begun  
for the total reclaiming of the whole of  
the "campagna."

**PERRY CO. FARMER  
GAINED 20 POUNDS**

His Wife Says Drego Has Helped Him  
in Many Ways, Stopped Dizzy  
Spells, Eased his Stomach,  
Relieved Constipation.

The enthusiastic statements of well  
known and reliable citizens right here  
in this city and vicinity as to how they  
have found relief from their troubles,  
should certainly convince anyone that  
Drego is an honest medicine full of  
merit. Every word they speak comes  
from the bottom of their hearts, hop-  
ing to lead someone else to the same  
relief.

"My husband has been helped in  
many ways by taking Drego and both  
of us never miss a chance to tell of  
its good work," declared Mrs. Cath-  
arine Huff, of Glenford, Perry Co., Ohio.  
"He is sixty-six years old and has  
been suffering from pains in his back,  
aching joints and sore muscles. His  
liver was sluggish which gave him  
dizzy spells and headaches, his bowels  
were constipated and gas often filled  
his stomach making him very uncom-  
fortable so that he could not eat a lot  
of things he wanted."

"Drego has put him in good condi-  
tion again and he feels fine once more.  
He has actually gained twenty pounds  
in weight. His stomach now digests  
everything, leaving no gas, bowels are  
active, never gets dizzy and the pains  
in his back are all gone. Drego did a  
lot for him and we are glad to tell  
about it."

Drego is being specially introduced  
by Evans, Cutler & Sons, Inc. in New-  
ark and sold by all druggists.—ADVT.

**DROUGHT HURTS WATERPOWER.**

Lerna.—Lack of rain for 10 weeks  
has so reduced the waterpower of most  
electric plants here, that there has been  
a shortage of power. Steam locomotives  
which had been displaced by elect-  
ric engines have been put back in  
service temporarily on some lines.

**POLAND MAKES MUNITIONS.**

Warsaw.—Poland's first munitions  
factory began operations near Warsaw  
recently. About 2,500 men and women  
are employed in the plant, which has  
been named "The Projectile."

**HAD INFLUENZA**

Then Watch That Cold,  
and avert after effects

Even if you escape the Influenza Epi-  
demic, the system should be guarded  
against colds this season. If you sup-  
press an attack, you should be doubly  
careful in view of the weakening effects  
of this deadly disease. At the first sign  
of cold, sore throat or coughing, apply  
Krew-Pina to the throat and chest and  
massage. Also put a little into the nos-  
trils. The best time for this treatment  
is bedtime, when you can draw the bed  
clothes up over the nose, funnel-wise,  
and inhale the medicinal vapors that  
reach the inflamed membranes in the  
air passages of the lungs.

The scientific formula from which  
Krew-Pina is compounded and the ab-  
solute harmlessness of all its ingredients  
make it invaluable for general family  
use in quickly relieving or healing ail-  
ments such as croup, tonsillitis, bron-  
chial and foot troubles, whooping  
cough, bruises, stone bruises, burns,  
scalds, cuts, etc. Keep a jar on hand  
for emergency purposes. 50c and 60c  
size, at your druggist's.

**Free Sample** of Krew-Pina  
WILL BE SENT TO ANY ADDRESS ON REQUEST.

The second game was full of pep. Heath made a good start and for a time was able to hold off any serious lead in scoring. However, the pink team seemed to be in the healthiest attitude to find a goal in the first period. Only one field goal and three foul throws were scored by the retrary men in this first half.

In the second half the Halsey team got away to find the groove through the net and put up 12 baskets. It was a game of the quality of action. The final score was Halsey 47, Heath 14.

First House, donated the third of Bowers' \$100. Next night at the Auditorium theater, the straight falls in the wrestling match with a win held there. The first fall came after 16 1/2 minutes.

It all appeared to be fast but proved not to be. The referee was a good man, and the wrestling was fast through the second set. The second fall came after 8 1/2 minutes, Bowers securing the fall with a back.

The first pinning between O. K. Crawford and Bowers proved to be an interesting race between two amateurs. The two boys, after two minutes, were in a dead-end fall. Bowers was on top, but Crawford, after a struggle, threw Bowers off his back and the boys were in minutes under a fall. The fall was fast and the boys were fast and clever and kept higher than most of the time. The fall of eight minutes.

Amateur wrestling was much of the material. Billy Sander, of the time spent at the University has been participating in the wrestling, January 1911.

The Council of Columbus, north of the city, today afternoon will welcome a speaker this afternoon before the members of the Review club. His subject will be "Things that Count." The lecture will be given at 2:30 o'clock at the residence of Mr. T. H. Epstod, church of the city, and will be the first of a series.

## Amusements

**TONIGHT'S ATTRACTIONS**  
Auditorium—"The Revenge of Tarzan."  
Alhambra—Constance Binney "Something Different."  
Grand—"Love Without Question."

**"LOVE WITHOUT QUESTION"**  
PLAYING AT THE GRAND  
Olive Tell starring in "Love Without Question," the feature attraction at the Grand theater last times today. This picture has been produced by B. A. Rolfe for Jans Pictures, Inc.

Slush blackness has been found mysteriously murdered in the abandoned room with both doors and windows locked from the inside. His ward, Katherine and his grandson Robert are suspected as circumstances point to them as the guilty parties. The solving of the mystery supplies the screen with the most absorbing drama seen for some time.

The supporting cast consists of James Morrison, Mario Majumdar, Ivo Dawson, Charles Mackay, Constance Binney, Peggy Barr, George Stevens and Floyd Buckley.

**MARGUERITE CLARK'S PICTURE A BIG HIT**  
Marguerite Clark, known as the sweetest girl in motion pictures, has scored another decisive hit in her new Paramount photoplay, "Let's Elope," which is to be presented at the Auditorium theater next week. Miss Clark has a charming role in this picture, and her going on screen is a triumph. The picture has been sumptuously produced while the supporting players are of the best. The picture will be warmly commended by all who see it.

## BOHEMIAN NEW YORK

Greenwich Village and other romantic retreats of New York's artist colony form the background for much of the action in "The Fourteenth Man," which is coming to the Alhambra next Sunday. One of those queer little artists' restaurants that one frequently reads about in the newspapers but seldom sees, as well as a brilliant costume ball, are the scenes of a budding love affair between the hero-adventurer of the picture and an heiress, who is posing as an art student. The story eventually leads to the prize ring and a happy ending. Felix Daniels has directed the picture, which is a Paramount Artcraft.

## PEARL WHITE TO PLAY

Pearl White, noted William Fox star, will return to the Auditorium for a one day return showing of "The White Moll," the Super-feature she was screened in at that house some time ago. This is not a serial, but a "real" dramatic exposition of life in the underworld. Tensely human and vividly emotional, it tells the story of a great redemption. It will be shown next Monday and for the one day only.

## GERALDINE FARRAR'S PICTURE

**"THE RIDDLE WOMAN"**  
Albert Payson Terhune, who has written novels about dogs and women, was one of a gathering of literary folk who witnessed the filming of Geraldine Farrar's first release for Associated Exhibitors, "The Riddle Woman."

Mr. Terhune recalled the Scotch saying, centuries old, that the coldest has the brains of a man and the ways of a woman, and added:  
"I will say, in all sincerity and with all reverence to woman, the female collier is the best type of womanhood."  
"One must not go to see 'The Riddle Woman,'" the writer warned, "in the childlike belief that the riddle-woman is solved by the author. He does not attempt to vivisect these female types. Only a very presumptuous or a very inexperienced man ventures into the labyrinth of the mind of a woman."  
"Woman is the riddle of the universe," is the unknown quantity; the ever-staring enigma. Man has coddled his

poor wits for ages trying to solve her, and is no nearer an analysis than when he started. No one can tell how a woman will act under given circumstances, and she does not know herself until those conditions encompass her. Then she is as surprised as anyone at the things she is capable of doing.

In the sensational play, "The Riddle Woman," there are three riddles—that is three women in whose affairs the spectators become interested. Through their situations are familiar, each acts in a different manner.

"The Riddle Woman" comes to the Grand theater Monday for a three day engagement.

## DOROTHY GISH IN "MARY ELLEN COMES TO TOWN"

Although in "Mary Ellen Comes to Town," the Dorothy Gish picture coming to the Alhambra theater for 2 days commencing Monday next, the little star plays the role of a country girl who deserts a sleepy Southern village for Broadway's "Gay White City," in real life Miss Gish is just the opposite. She recently arrived in New York from California to make pictures, and already she has lived of the nerve-racking pace of the metropolis. So much so, that Mrs. Gish, her mother, has purchased for the comedienne and her famous sister, Lillian, a nice-acre farm within commuting distance of the studio.

"There is hope to keep a red cow," said Dorothy recently, "that will give milk at twenty cents a quart and I'm going to raise several hundred chickens to lay those nice dollar-a-dozen eggs."

## HARRY CAREY WILL PLAY AUDITORIUM SUNDAY

Harry Carey, clever actor of Western parts, comes to the Auditorium Sunday in his latest Universal Special feature, "True Hearts." A comedy "Mr. Fatima" with Eddie Barry, Helen Darling, Edith Barry and The Orchestrals as usual added features. The Orchestra as usual will be good and will be heard in a special musical program, with perhaps a solo by Mr. Sam Geier, the conductor.

## SPECIAL MUSICAL ACT

**AT AUDITORIUM THEATER**  
Manager Fenberg late yesterday arranged by wire to have Bernie's Spectacular Musical Act of 5 girls play today and Saturday at the Auditorium in conjunction with the picture "The Revenge of Tarzan." There will be no advance in price.

## HELEN DARLING RED-HEADED

**"SPUNK" IS HER MIDDLE NAME**  
Helen Darling, who plays the lead of the two-reel Christie Comedies at Auditorium theater Sunday is, noted in the Los Angeles film colony for her remarkably beautiful red hair and for her "spunk." Someone has said that the crimson locks form the red badge of courage; certainly it is true in the case of Helen, for she's one of the hardest workers and the most daring performers of Christie players.

Barked with a Boston education, though she was born in Oregon, Miss Darling began her professional career about three years ago as a dancer at Tall's, one of San Francisco's exclusive restaurants. There she first attracted the attention of Al Christie, and she was offered a place as a member of the Christie Follies Girls. Her remarkable beauty and unusual grace quickly won her a position as leader of this celebrated group. She first made a pronounced hit as a chorus girl in one of the Fox Theater pictures and from that time on she was given more and more important parts until now she has become easily one of the most popular leading women in all comedies.

## END BENNETT IN WOMAN IN THE SUITCASE

Thomas H. Ince broke one of his pet rules when he produced the new End Bennett starring vehicle, "The Woman in the Suitcase," which will be shown at the Auditorium theater for 2 days, commencing Wednesday. Generally Mr. Ince insists upon filming scenes upon the exact location named in the

script. This picture called for a short episode in a New York hotel lobby. It was hardly worth while to send the whole company East so the "set" was constructed on the lot and is said to be one of the most elaborate ever made as well as an exact reproduction. Several elevators in which people really ride and a large fountain are among the details not to speak of expensive rugs, plants and furniture.

## HUGE MENAGERIE IN "TARZAN" FILM

If you think the making of an animal picture is not difficult listen to the wail of Director Harry Revier who had charge of the making of "The Revenge of Tarzan" which comes to the Auditorium theater for two days, commencing today.

Mr. Revier, in addition to handling more than 600 human artists was blessed with 63 beasts, some of which had no previous experience working with groups of people and others totally new to captivity.

## NEW BINNEY FILM LIVES UP TO NAME

Just a year ago photoplay lovers saw little Miss Constance Binney in her first Realart picture, "Erstwhile Susan," in the role of a weary little Pennsylvania Dutch Cinderella and it was apparent that here was a new star with a personality and an appealing beauty which needed no fluffy negligees and elaborate settings. Her latest Realart offering, "Something Different," which opened to an enthusiastic house at the Alhambra yesterday, shows the young star in the beautiful clothes and sumptuous settings which her earlier pictures have withheld, but the same youthful simplicity and straightforwardness which made her so winning in "Erstwhile Susan" and "39 East," are still the most notable elements in her wholly delightful screen presence.

## CHORUS GIRL IN "MARY" LIKES DOLLS

The habit of making collections seems to be the most natural of human traits. It is what has made misers and plutocrats and has given value to so many commodities which otherwise would have been of little worth. Moreover there is always an interest in the things that people collect, that is, if they go far enough in the acquiring and assemblage of a variety of them. Dolls, for instance, are so associated with the young that few people give thought to the fact that there are certain collections that comprise an infinite number of dolls that are extreme in historic and geographical value. But in addition to these, once in a while one meets with some young lady, who, despite her having reached the age when the reality should supersede the make-believe, has the collection instinct so developed that she persists in acquiring dolls many and various.

Such a young lady is Virginia Lee, perhaps the liveliest of the dancing chorus in George Cohan's musical production "Mary" at the Auditorium, Tuesday.

## HARTMAN THEATER, COLUMBUS

The eagerly awaited appearance of Ethel Barrymore in "Decease," in which she is making her first tour, is to materialize at the Hartman theater, Columbus, three days beginning Monday, Jan. 10. "Decease" is from the pen of Zoe Akins and it is a matter of Gotham theatrical history that from early October of 1919 to June of 1920, New York theatergoers crowded the Empire theater to its capacity to witness Miss Barrymore's magnificent performance. Scenes following the memorable first night, when conservative New Yorkers remained in the theater to

## Borrowed Husbands

Mildred K. Barbour's latest and best serial "Borrowed Husbands" will be published in the Advocate beginning Monday, January 10.

Readers who followed Mildred Barbour's (Mildred Marshall) interesting story, "Married Strangers," in the Advocate several months ago will find this new married life serial of absorbing interest.

This is the story of a girl who is so "square" in spite of her charm and prettiness that her women friends are willing to donate their husbands as escorts and dancing partners when her husband goes away on a year's archaeological expedition to Peru. But why relate the story in advance? It will be told in short daily installments of about 500 words each, beginning Monday, January 10.

cheer the actress and left only when the lights were dimmed, became nightly occurrences. In "Decease" Miss Akins has created for Miss Barrymore a role in which all the splendid gifts of the actress are displayed at their best. Moments of the inimitable, deft Barrymore comedy appear, only make more poignant the numerous scenes of serious emotional appeal and import. The Charles Frohman company has surrounded Miss Barrymore with a most distinguished cast. There will be a matinee Wednesday.

On Thursday and the remainder of the week of Jan. 10, the Hartman will offer "Fanchon & Marco's 'Satires of 1920,'" a revival unique in that it contains a plot. The principal features of the production are furnished by Fanchon & Marco, and the comedy roles are in the hands of Lloyd & Wells, Arthur West, Al Wohlman and others. Miss Eva Clark is the prima donna and there are a lot of gorgeous "peaches" in the ensemble. Mail orders should

be sent in now, as the box office sale opens Monday and there will be a large demand for reservations for this attraction.

## KING BAGGOT IN "THE HAWK'S TRAIL" AT THE GEM TODAY--ONLY

## IT IS TIME YOU SAW "SOMETHING DIFFERENT"

Are you just a bit tired of problem plays and eternal triangles and divorces? Would you like "something different" in moving pictures, something fresh and new—and, yes, romantic? Something that will entertain you and make you forget the coal situation and the price of shoes? Then you must make sure you see SOMETHING DIFFERENT, with CONSTANCE BINNEY playing the romantic role of an American girl in a Central American revolution. It is at the Alhambra today and Saturday.

## COMMITTEE CUTS BIG SALARY BILL

Washington, Jan. 7.—The legislative, executive and judicial appropriation bill, the big salary measure, reported out yesterday by the house appropriations committee, carried a total of \$112,728,433 or \$23,724,196 less than departments asked for and \$7,728,771 below the amount appropriated for the current year.

As an indication of the war-time increase the bills total in 1916 was \$96,910,799, but as one means of cutting expenses, the committee lopped salaries of 12,183 employees in the District of Columbia. An appropriation of \$10,000,000 was recommended for the bureau of internal revenue to be used largely in enforcement of prohibition.

**SIMPLE LIFE.**

About 15 years ago much was being said about "The Simple Life." Magazines and books were colored with this pleasant and wholesome gospel. Multitudes of people were interested by it, though many of those who believed in it did not practice it. Many simple life lectures were applauded in parlors fitted out with the most refined elaboration of the 20th-century.

The war brought on changes that forced many people toward simpler lives in spite of themselves. Multitudes of families that used to employ servants, became unable to find them. They had to simplify. Women who were forced to do their own housework, would not fuss over trifles.

Now they see that their old habits involved too much labor for no result. They think of all the complicated system of table furniture, all the multiplicity of dishes and table covers and lacey things of all descriptions considered necessary for the proper serving of a simple meal. When they had to do their own dishwashing, they discovered that a lot of this elaborate machinery can be scrapped. Today their pantry drawers are loaded with a lot of unused trumperies.

And this change of habits affects millions of other women who have never kept servants at all. Many of these used to think they must imitate the ways of wealthy people. A small minority of people of large means still live in the old elaborate way. Many of them feel the cost of service, and are disposed to eliminate labor so far as they can.

The world had been paying too much attention to ceremonies, and not enough to real living, and vital things of community development. Cutting out needless formalism in housekeeping sets free time for useful service.

**INJURED WORKERS.**

Industrial accidents in New York state totalled \$45,672 during the fiscal year. The cost to the state under the workman's compensation law was \$15,200,000. This expense was only a small fraction of the whole cost. The compensation laws do not make up for the stoppage of production and incidental expenses.

Many of the accidents have left workers crippled for life and families without their chief wage earner. There was an increase over the preceding year of 57,223 accidents, probably due to rushing times in business. And yet the public has been thoroughly warned by energetic safety first campaigns, of the losses caused by these accidents. Similarly destructive results have probably occurred all over the country in factory and transportation work, mining, etc.

While many industries have failed to install necessary safeguards, yet the chief cause these injuries is the heedlessness of workers. It would pay the industries to display regularly to their employees, moving picture films illustrating how accidents happen and how tragic their results are.

**PASSING THE BUCK.**

"You can go if you'll get out of town in one hour." This is the favorite way of dealing with petty criminals in many places. Police forces are very apt to solve the problem presented by these characters, by passing the buck to the next town. Then the next town evens up by passing back some other fellow of the same breed.

Thus many sneak thieves and semi-criminals are encouraged to pursue their predatory course, and develop into hardened offenders.

The police is partly responsible for the crime wave now sweeping over the country when a fellow has given clear evidence of wilful wrongdoing, it is time for the state to impose some penalty or put him in a reformatory institution.

## RECENT ELECTION DISCOURAGING BUT IT IS NOT DISHEARTENING

—SENATOR PAT HARRISON

Lancaster, Jan. 7.—United States Senator Pat Harrison of Mississippi delivered the principal address at the annual Jackson Day dinner of the Fairfield County Democratic club last night. The senator said:

"Jackson's party, the party of Jefferson, the party of Cleveland and Wilson and Cox is as great today as ever before in its history. It has had its triumphs and its defeats and thank God it will live as long as we have a government of the people, by the people, and for the people.

"The recent election was discouraging, but not disheartening; disappointing but not disastrous. We made a great fight for a great cause with a great leader. Ten thousand times would I rather have seen my party go down into defeat under the issues we presented than have achieved victory on the character of the campaign of misrepresentation employed by our antagonists.

"Every alluring piece of sophistry that oratory could command, every cunning device that politicians could conjure, every fallacious argument that assassins of character could wield, were used by the opposition leaders. They stirred up imaginary grievances and groused sectional prejudices. They misrepresented everything and everybody connected with this administration. By lavish use of money and despotic methods these leaders organized every discordant element, dissatisfied, discontented and un-American and tonight throughout this land the Democratic party makes no apology to any class, to any section nor to any element for the issues it presented in that campaign.

"We look the whole world in the face and know that our party made a clean fight on a high plane and for enduring principles.

Senator Harrison praised the achievements of the six years under a Democratic administration, pointing to the passage of more measures remedial and progressive in the interests of farmers, laboring men, the women, the children and the legitimate business interests of the country than in fifty years under Republican rule. He said:

"In that period there were no soup kitchens, no empty dinner pails, no shutting down of factories, no begging, no calling at your back door, and no riding of blind horses. The farmer received his highest prices, the laborer his greatest wage, the business man his greatest profits.

The speaker condemned the Republican emergency tariff law as "unfair and illogical." He said it is what we may expect from a reactionary leadership in the Republican party.

Continuing his argument against the

emergency tariff bill, the Senator asserted:

"This bill which has already passed the house and is now pending in the Senate is the grossest piece of hypocrisy ever attempted to be practiced upon the American people. It is a sop thrown to the farmers of the country in order to fool them into believing that an embargo on wool and foodstuffs enumerated will cure the ills with which they are confronted. There never was such a mistaken policy."

The senator called attention to the depleted gold reserves of European nations, saying that if they purchase from us the only way they can pay us is with their goods. Placing of a tariff embargo will curtail our foreign trade, prevent the payment of foreign indebtedness, curtail our foreign relations, close down our factories and destroy business.

"There is a revolutionary change taking place in America touching this great and important question and I am glad to see that Independents and Republicans, who have always maintained views for a high protective tariff, now realize that foreign markets for our goods are essential to our peace and prosperity and have come around to the Democratic view of the tariff.

Praising the Federal Reserve Act the Senator added: "And it takes no wise economist to know that under this system the present abnormal conditions with which we are confronted would bring us a financial panic worse than the Republican panic of 1907."

Woodrow Wilson was exalted as the "Wounded Hero of Versailles," humanity's greatest living exponent of peace and the most constructive statesman of the age."

Commenting on the future Senator Harrison said: "We shall continue in concert the fight which was begun by our heroic armies, carried on by our wounded president, sanctioned in the Democratic platform, and championed in every quarter of the land by that great crusader for human rights, the recent standard-bearer of the Democratic party."

A more able candidate was never nominated by any political party. The party's defeat was no defeat for him. Any candidate who made the fight that he did under abnormal conditions and exceptional circumstances, will surely hold a high place in the councils of the party and will always be entitled to a place as one of the real leaders of the world.

"I am glad to speak in the great state of Ohio that has given so many distinguished military heroes, jurists, statesmen, but no one in all its history deserves a greater hold upon the affections of the people than your distinguished citizens and governor, Democracy's leader, Jim Cox."

## WAITING POT

Great works are performed not by strength but by perseverance.—John Ruskin.

**Unlucky.**  
If you should chance to wish To prove this statement all you need Is to ask my fish.

**Sam's Idea.**  
Aunt Caline says—I and Maggie Zeen has got into the habit of going up to visit the school about every other day whilst we was there the teacher had up the class in what she called general information, she said everybody had to go to no about. Pretty soon she got round to little Sam Slapper and she says, "Now, Sam, she says, 'can you tell me what are the four seasons?' says she, 'An' Sam looked up real bright an' says he-bright an' says he-got an' loud, 'Summer an' fall an' winter an' horse-dish,' he says."

**Candid Friends.**  
Said Raggedy Ann to Raggedy Andy, "Looks like your legs are a little bit windy."  
Said Raggedy Andy to Raggedy Ann, "Nobody notices that in a man."  
—Keith Preston in Chicago News.

"If you'd lengthen your dress you would look simply dandy."  
To Raggedy Andy remarked Raggedy Ann.  
Said Raggedy Andy to Raggedy Ann, "Then no one could see you were built on that plan."

**Did You Know**  
That chalcidony is a variety of quartz? It derives its name from Chalcidion in Hylarion, near which it is found in considerable abundance. It is generally translucent and is usually white, less frequently gray, blue, green, yellow, brown or even black. Chalcidony is a variety of chalcidony of a fine apple green color in choice specimens, but inferior ones show other

shades of green. Chalcidony is much used in jewelry and has been from ancient times. Many beautiful engraved specimens appear in antiquarian collections.

**A Heavy Meal.**  
Quite fond of nuts the chipmunk is. And we should like to treat Him to some we know, but gee whiz! We fear he'd overeat.

If he'd partake of some we've met, Your idea we would question. Because there's no doubt he would get A case of indigestion.

**Fact.**  
This rhyme, true, you will agree, Deny no man can. It takes a better half to see The worst side of a man.

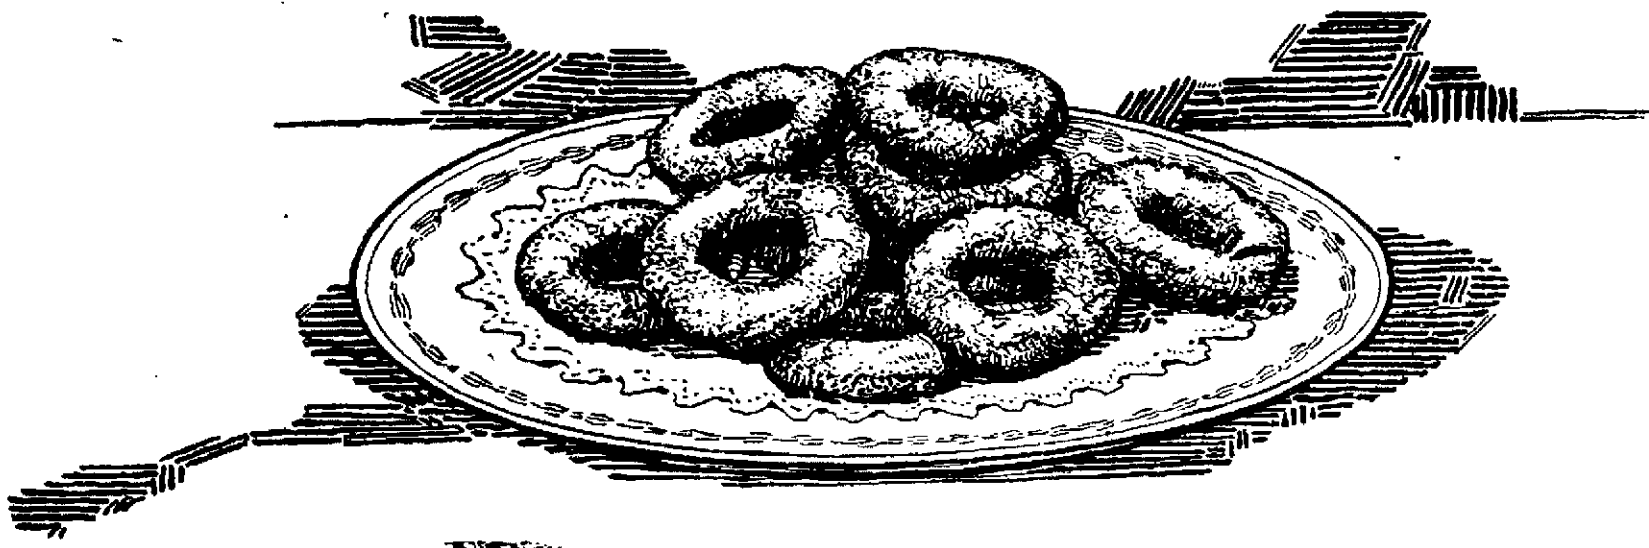

And oft that better half, gee whiz, That quite impossible she, Says that it is because there is No other side to see.

**Coughs Undermine Health**  
There is a severe nervous strain in a cough—it disturbs your entire system. Coughs weaken body tissues—induce fatigue, lower vitality. Bronchitis, influenza, pneumonia can be traced directly to coughs.  
**GLESSCO** gives quick, positive relief—one dose gives pleasing results. Dapels soreness—soothes and comforts. Whooping cough is promptly relieved, and severe coughing attacks vanish like magic.  
Millions of homes keep GLESSCO on hand ready for instant use. All druggists sell it on a money-back guarantee. Get it today—have it convenient. Price 50 cents.

## I HAVE A SPLENDID APPETITE CAN EAT ANYTHING NOW SINCE I'VE TAKEN EARLE'S HYPO-COD

Best good at night. My nerves are stronger, declared this man.

**ONE BOTTLE DID THE WORK FOR HIM**

"I suffered from nervousness, a run-down system, loss of appetite and was not able to rest good nights," declared Mr. Comeans, whose address is given below.  
"I now have a splendid appetite, can eat anything that comes along and I have only taken one bottle of Earle's Hypo-Cod. I never thought one bottle of medicine could do so much. I rest so much better at nights now and my nerves are stronger and in much better condition. I have been greatly benefited by the use of Hypo-Cod. It surely is a fine medicine," continued Mr.

F. H. Comeans, 1667 Michigan Avenue, Columbus, Ohio.

Good health, more strength, better appetite, strong lungs, steadier nerves and richer blood means better work, easier work and more fun out of life and it costs very little when you stop and think.

Earle's Hypo-Cod is simply a newer, more modern, more powerful tonic, and is so pleasant to take. Men children love it and elderly folks say it agrees perfectly with the weakest stomach. See formula on bottle. Druggists, chemists and thousands of users endorse it above all other tonics as the most powerful of its kind made. Be sure you get the genuine Earle's Hypo-Cod in the famous orange colored carton. You'll be delighted with the way it quickly does the work.

Earle's Hypo-Cod is sold here by all good druggists and the leading druggists in all nearby towns.

## WANTS BILL OF SALE FOR AUTOS

The State Auto Association Backs Proposed Measure to Avert Thefts.

Would Do Away With the "Fences," Where Thieves Sell Stolen Cars.

Columbus, Jan. 7.—A public record of the sale of every automobile in Ohio will be required if a bill, to be introduced in the legislature by Senator J. P. Atwood, Columbus, passes. Senator Atwood, in introducing the bill, he said, will make the point that auto stealing will end when the "fences" are removed when a machine may not be purchased unless the seller shows a certificate of ownership.

The measure has the backing of the Ohio State Auto association, its 56 affiliated clubs and 40,000 members, and the approval of Secretary of State Smith. A copy of it has been given to A. M. Calland, attorney for the Ohio Auto Dealers' Association, and the cooperation of that body asked.

The measure requires that when a machine is sold, the seller must give to the purchaser a bill of sale setting forth the previous owner, if any, engine number, make of car and other identification features. It also is unlawful for a man to buy a machine without obtaining this bill of sale from the seller.

Data on the bill of sale must be sworn to before a notary. A duplicate of the bill must be filed with the clerk of courts of the county by the purchaser within three days after the sale. The clerk shall make alphabetical indexes of sellers and purchasers.

Failure to give or obtain a bill of sale

is punishable by \$25 to \$1,000 fine, one to five years' imprisonment, or both. Lesser penalties are provided for failure to have a bill of sale sworn to, misrepresentation as to the history of the car, and failure to file bill of sale and the like.

Every owner must obtain from the clerk of courts a certified statement that he is the owner and setting forth a description of the car. This need not be carried when on trips, but Atwood believes on long trips, the owner should carry it for his own protection.

"This bill may appear a little stringent, but it will be no good unless it has teeth," Atwood said. "I don't know of anyone who would object to this little red tape, except thieves and persons wanting to buy stolen machines. If anyone has a better scheme for stopping auto stealing, I'll gladly drop mine. But something ought to be done at this session of the legislature to effectually curb automobile stealing."

If a loophole is left anywhere, the criminal will find it, Atwood said. He admits that even under this measure, thieves can hang the tag of some other state on a stolen machine and sell it here. But he points out, the purchaser would have to secure a bill of sale, in which the seller makes oath before a notary as to his ownership and the previous ownership of the machine.

It won't be long before Ohioans will be suspicious and will investigate carefully before buying, Atwood said.

The Ohio State Auto Association has sent copies of the bill to corresponding associations in Indiana and Illinois, and the request that they back it in their states.

### POLAND LOSES DOCTORS.

Warsaw.—Poland lost 400 doctors from typhus fever last year and now has only 4,000 for a population of 28,000,000, or one for every 7,000, according to an official report made to the American Red Cross by the ministry of public health. The American Red Cross is constantly reinforcing its medical men in Poland for the purpose of helping the local health authorities to offset their losses in native physicians.

## COAL DRAYMAN MADE A FORTUNE

Used Phone to Sell Coal He Never Saw and Cleared \$20,000.

Athens District Is Full of Stories of Fortunes Made From Coal.

Athens, Jan. 7.—It's a far cry from the Hocking Valley coal fields to the gold mines of the Klondike, and the black fuel is considerably less valuable than yellow-specked nuggets, but money was made almost as fast in the mining district around here during and after the war, as in the heyday of the famous gold fields.

Most of the "easy" money was turned into pockets by astute speculators who sold coal without ever seeing it, or getting the slightest trace of its dirt on their hands. Some of the speculators were big operators, money men to start with, others were clerks, draymen and persons who worried about paying the rent and grocery bill each month.

It is said that a certain young drayman heard a lot of coal being sold over long distance telephone some months ago. He was in a Nelsonville hotel.

Incidentally, according to the hotel loungers, literally millions of dollars worth of coal had been sold over that same phone, without the seller ever seeing it. Selling coal seemed simple, and the young drayman figured.

He decided to follow his dray operators at that time were selling coal to the highest bidder.

The drayman heard a certain address during the phone conversation. He learned where he could sell coal, so he got into communication with a small mine owner, bought a car of coal, went

to the telephone and sold it, clearing \$125, without ever seeing the fuel.

The horse and dray went the next day, and the young man is declared to have cleaned up \$20,000 in the next four months. But he is back on the seat of his dray again; the easy money went the way it came.

An instance is told of a young man, whose father is popularly supposed to have made millions in coal here in the last few years, trying the selling game. He is said to have made \$40,000 a year.

Neighbors of a man working in a factory district here suddenly were surprised to see him take on all the airs and appurtenances of the new rich, according to the story told in the neighborhood. Automobiles and such things were necessary for the plauding householder.

Folks wondered where he got the money. The mystery was in a little coal mine up in the valley. He had put all his savings in it, and was drawing a dividend check each week that would make a movie actor envious.

Today, however, scores of the little mines are being closed. They found they couldn't sell coal at a reasonable profit below \$4 a ton, so they quit.

When speculators bid off their coal at \$7 and \$8 a ton and higher, it was easy selling, but then the market broke.

Scores of stories of men who transformed a little pluck and selling ability, with the aid of the "black diamonds"

into thousands of dollars of easy money are heard from most everyone in this mining district—but the day is over now.

## CZECHS SEND GIFT TO CITY THEY RECOVERED

Paris.—Miss Alice Masaryk, daughter of President Masaryk, of the Czechoslovak republic, and president of that country's Red Cross, has just sent to the French government 10,000 francs, the proceeds of the first presentation of a play entitled "The Victors." This money is to be devoted at the donors' wish to restoration work of the country town, Terson, on the Aisne, France, the scene of fine fighting by the Czechoslovak brigade, during the battle of Vouziers, October 13 to 23, 1918.

The play which earned the gift was given last summer in the open air theater in the Charka valley, near Prague. It recalled the combats of the Czechoslovak legions and of the allies.

For five cents the Chicago School Board furnishes a lunch consisting of soup, bread, milk or cocoa and fruit or pudding. There are between 40,000 and 50,000 customers a day.

## The WHEN Store

You Will Like Our Store

You'll like it because it brings you every advantage in buying clothing that a large organization can offer.

We operate a large chain of stores, with central buying offices in New York City. Right there, in the style center of America, all our merchandise is bought and shipped to our stores as fast as it is needed—almost daily, in fact.

Buying in large quantities for all our stores enables us to buy at very low prices. The resultant savings are passed on to our customers in lower prices.

We have never offered anything but quality merchandise—at reasonable prices—because we have endeavored to build up a large and permanent business. The size of our business today, and the good will of our thousands of customers, shows how well we have kept to this policy.

Our Divided-Payment-Charge-Account Plan is another reason why you will like our store. It offers you satisfaction and convenience which will only be fully appreciated after you have used it.

It is just like opening a bank account and depositing fixed amounts regularly. Instead of saving for clothing, you come to our store and select what you need, arranging to divide the bill into several amounts.

There is nothing new about this plan. Government bonds and homes are bought in the same way.

However, there IS a difference between our plan and what the usual store offers. We offer you the privilege of a charge account as an additional feature of our service—and it does NOT cost you extra.

Right now is a good time to start an account.

## FORD NEWS

The following letter has been received by the local dealer, A. P. Hess Automobile Co., and will prove of interest to all prospective purchasers of Ford cars:

### TO ALL FORD DEALERS:

Several inquiries have recently come to us concerning the likelihood of another reduction in the price of our cars, and as these inquiries no doubt emanate from prospective purchasers, we want to state again with greater emphasis that Ford cars are already being sold at a figure actually below cost, and for an indefinite period another reduction or change in design is entirely out of the question and not at all contemplated.

We believe the public will be fair enough to fully appreciate the frankness of the above when they consider the extent of our recent price cut which was in fact the equivalent of several reductions in one, in our desire to contribute toward satisfying their demands for lower living costs notwithstanding our sacrifice in marketing our cars at a loss until we are able to materially reduce present costs through lower material prices and greater manufacturing efficiency. While we have of course made some progress in bringing down operating costs, we still have a long way to go before any thought can be given to further reductions in present car prices, so we have no hesitancy in making these open statements to acquaint you with the true situation.

You can therefore give assurance to prospective purchasers of Ford cars that now is their real opportunity to buy below cost and obtain delivery. Everyone is familiar with the heavy demand for Ford cars in the spring, and this year will be no exception, as in spite of conditions, business is already rapidly accumulating, so that many who desire Ford cars will be obliged to wait perhaps until midsummer for delivery, causing considerable inconvenience and possibly financial loss, particularly to commercial customers.

We expect you to protect the interests of prospective buyers in your community by placing these facts before them.

(Signed)

## FARM EDUCATION INCREASES IN OHIO

Report of the Agricultural Schools Sent to Congress Shows Growth.

Departments of Home Economics and Trade Education Are Numerous.

Columbus, Jan. 7.—Agricultural, home economics and trade and industrial education have taken good strides in Ohio during the last year, according to the report sent to congress by the Ohio department of the federal board for vocational education. The report covers work that has been done with the aid of federal funds.

Of agricultural education, the report says: "Sixty-two schools, an increase of approximately 4 per cent over last year, were approved for federal aid, and enrolled 1,221 pupils in vocational work. The total income of pupils from direct or supervised practice in agriculture in 1918-19, was \$99,029.59."

"It may be said that the quality of the work performed in the departments has averaged much better and has been conducted more thoroughly than previously. Teacher training activities have been conducted in connection with five training schools, where courses in observation teaching and supervised teaching have been carried out. In the

department of agricultural education at the Ohio State University, a course in the methods of teaching vocational agriculture has been offered each semester during the summer season. An enrollment of 39 students has been attained during the last year."

The report said that 27 all-day schools for instruction in home economics have been in operation during the last year. Five of these have been used by the teacher training institutions for purposes of practical training. "Twenty-two of the all-day schools will be reimbursed by federal aid," the report continues. "In these schools, 629 pupils were enrolled and 25 teachers employed. Twenty-seven, 12 months' teachers were employed and home projects reported as a part of the work."

"More than 100 schools of the state have applied for state aid, but as funds this year have not been sufficient to meet the demand, only 20 new day schools have been taken on for 1920-21."

"Teacher training work has been carried on at Ohio State University, Miami University and the University of Cincinnati. The total number of teachers graduating from vocational and home economics training schools this year was 26. At present the number of qualified graduates is not sufficient to meet the needs of the state."

Concerning the progress made in trade and industrial education, the report says: "To meet the need of the wide range of industries in Ohio, the state has developed a well-defined program of part-time trade extension, co-operation and evening trade extension classes."

"During the year there has been organized a program consisting of 20 part-time trade extension centers with 35 schools, four general continuation centers, with six schools two a day and

others with five schools; 30 evening class centers with approximately 1,200 students; the general continuation schools, 1,000 students; the all-day schools, 129 students and the evening classes approximately 6,700 students."

## OHIO FARM EXPERTS DESTROY BARBERRY

Columbus, Jan. 7.—About 210,000 of the common barberry bushes have been discovered in Ohio by investigators of the department of agriculture, and they have exterminated between 80 and 90 per cent of them.

The barberry is the alternate host of the black stem rust of wheat, which annually causes the loss of 50 million bushels of the grain in the United States twice as much as all the farmers in Ohio raised in 1920. State and federal agriculturalists have joined hands in a campaign to destroy it.

This year a farm-to-farm survey was made in Allegheny, Montgomery, Franklin, Mercer and Van Wert counties and from 10 to 100 locations of barberry were found in each county, with hundreds of thousands of bushes at each location, the investigators reported. One location may cause a heavy attack of stem rust within a radius of two miles. It is said, and just a few bushes may cause a great loss.

Farmers remove the bushes voluntarily, but Attorney General Price has ruled that the state department of agriculture has authority to compel extermination of the plants.

Every soldier attached to the American forces in Germany is a member of the American Red Cross.

## SAILOR WOUNDED AFTER ARMISTICE CLAIMS RECORD

Toledo, Jan. 7.—Oliver Optic Rolph, 41 years old, who claims to have been one of the oldest enlisted men in the United States navy during the world war, and who was wounded by German submarine shell fire at 4 p. m. on the day the armistice was signed, has made application for his transfer from a Cleveland to a Toledo post of the American Legion.

Rolph was on the ship Lake Char-

lotte, cruising off the Spanish coast on November 11. A German sub was sighted, but sailors on the Lake Charlotte did not pay much attention to it as they knew the armistice had been signed. The submarine opened fire, however.

For years, Rolph fared on the Great Lakes, and when this country got into the world war, he couldn't resist the enticement. He got in the merchant marine, and went to Wales, where he was commissioned in the naval reserve, because of his seafaring experience.

The annual salary for fully certified teachers in the elementary schools in London is \$800 for men and \$750 for women.
